

The Unit Organizer

④ Bigger Picture

NAME _____
DATE _____

Using ratios and proportions, fractions, decimals, and how they relate to each other.

② **LAST UNIT/Experience**
Algebraic representations of two variable relationships.

① **CURRENT UNIT:**
GEOMETRY AND MEASUREMENT

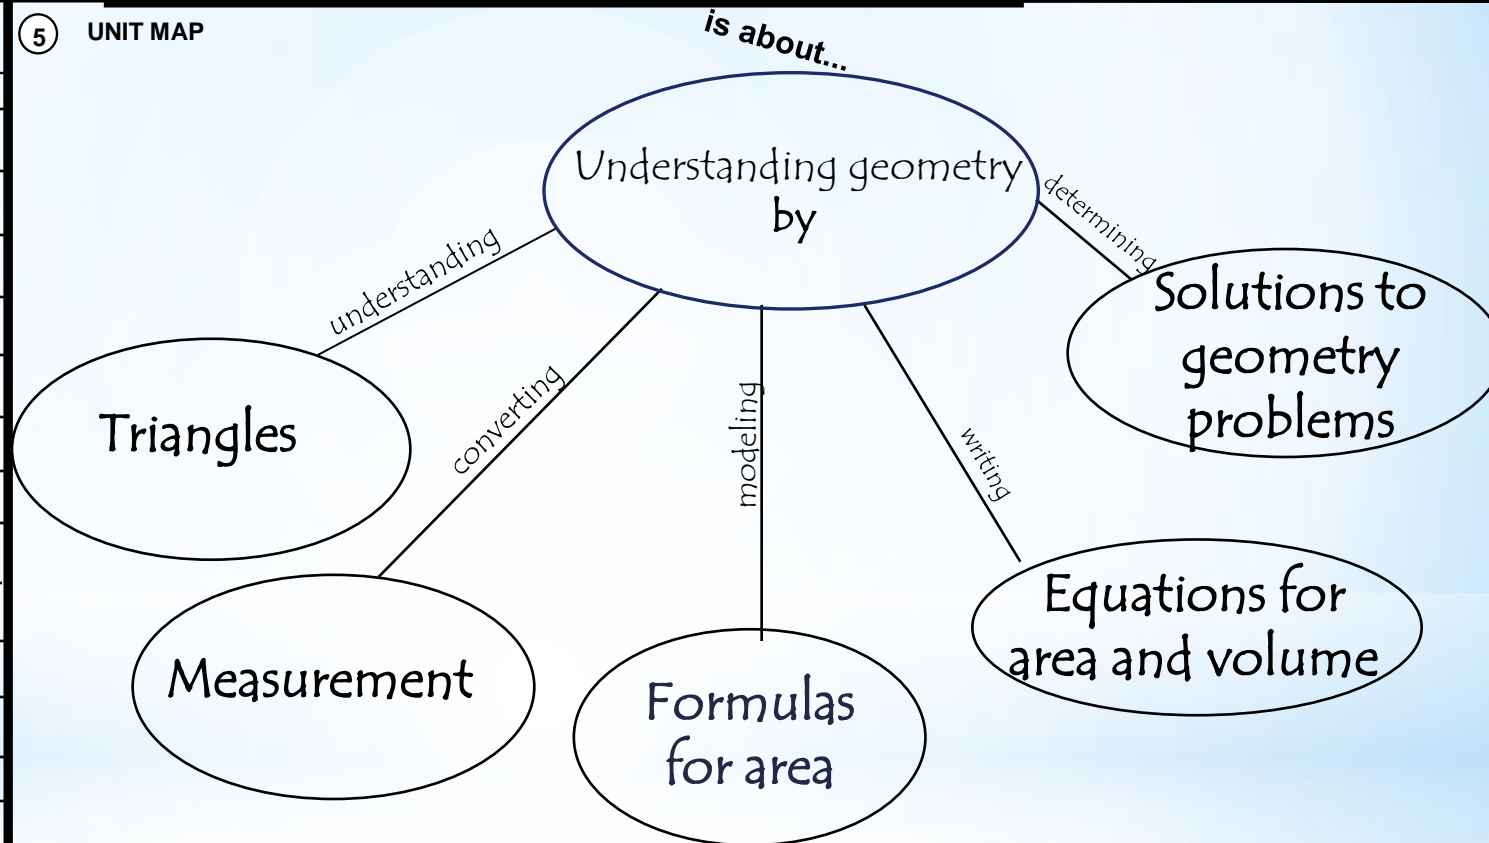

③ **NEXT UNIT/Experience**
Data Analysis

⑧ Unit Schedule

Lesson

- ✓ Properties of triangles
- ✓ Area of triangles
- ✓ Area of rectangles, squares and parallelograms
- ✓ Area of trapezoids
- ✓ Volume of prisms
- ✓ Convert with proportions
- ✓ Unit exam

⑤ UNIT MAP

UNIT SELF-TEST QUESTIONS

⑦

- ❖ Can I name triangles based on their angles and sides?
- ❖ Can I use proportions to convert between systems of measurement?
- ❖ Can I use formulas for area to find missing information about different polygons?
- ❖ How can I determine the correct formula to use in solving for the area/volume of a polygon?
